Sydney Smart Technology College (SSTC)
No.143 Taishan Rd., Qinhuangdao, Hebei, P.R.China

Dear Student

Re: Welcome to the Sydney Smart Technology College

It gives me great pleasure to extend my warmest congratulations to you for having successfully secured an offer from the Sydney Smart Technology College (SSTC), a joint initiative of the University of Technology Sydney (UTS) and Northeastern University (NEU).

As an SSTC student, you will benefit from the educational offerings that both UTS and NEU have to offer as we collaborate to provide you a world-class education in science and technology. I am certain that the time you spend studying at the SSTC will be successful and rewarding.

We also look forward to welcoming you to UTS during the latter part of your studies. Once you have successfully completed the first two years of study at SSTC, you will be eligible to complete the remainder of your degree with UTS. The unique pathway will see you graduate with two bachelor degrees from two top-ranked global universities.

As you are probably already aware, UTS is ranked Australia's QS Top 50 under 50 (2016-2021) university and Times Higher Education (THE) Top Young University 2022 and our state-of-the-art Sydney campus is located in a thriving business and creative industries precinct. Our students come from more than 120 different countries, which makes our campus a dynamic and diverse place to study.

I look forward to welcoming you to our UTS program. The time you spend with us will be a wonderful opportunity for international study. Importantly, the life-long friends and connections you make at UTS will be invaluable for your future career and lives.

Once again, my sincere congratulations to you on the commencement of your university studies at the SSTC and wish you all the very best for your studies.

Yours sincerely
